Consent for Treatment

I, the undersigned, hereby authorize the following healthcare providers to perform specific procedures within their scope of practice, as necessary to facilitate my diagnosis and treatment: Eleonora Naydis, N.D., L.Ac. (MSA 6/2004 from Bastyr University, acupuncture license # AC00002557), Allison Apfelbaum ND, LMP, Peiwen Wang Fannin (MSAOM from Bastyr University, acupuncture license # AC61005822), and Kristen Mattisson, EAMP, LAc, LMP (MSAOM from Bastyr University, acupuncture license # AC60248797).

General Diagnostic Procedures, which may include but not limited to venipuncture, pap smears, radiography, and blood and urine lab work, general physical exams, neurological and musculoskeletal assessments.

Lifestyle Counseling and Hygiene: diet therapy, promotion of wellness including recommendations for exercise, sleep, stress reduction, immunization, psychological counseling, and balancing of work and social activities.

Dietary Advice and Therapeutic Nutrition: use of foods, diet plans or nutritional supplements for treatment.

Injection/intravenous therapies: Intramuscular vitamin injections, trigger point injections, biopuncture, and intravenous therapies.

Herbs/Medicines: prescribing various therapeutic substances including plants, minerals, animal materials, and some pharmaceuticals, and contraceptive devices. Substances may be given in the form of teas, pills, powders, tinctures—may contain alcohol; topical creams, pastes, plasters, washes, suppositories or other forms.

Soft Tissue and Osseous Manipulation: use of massage, cupping (a technique to relieve symptoms in which cups made of glass or other materials are placed on the skin with a vacuum created by heat or other device), gua sha (a rubbing on an area of the body with a blunt, round instrument), neuro-muscular techniques, muscle energy stretching or visceral manipulation, as well as manipulations of the extremities and spine including traction and craniosacral therapy.

Homeopathic Remedies: use of highly dilute quantities of naturally occurring plants, animals and minerals to gently stimulate the body's healing responses.

Minor office procedures: e.g., dressing a wound, ear cleansing, care of superficial lacerations, removal of warts/superficial lesions.

Electromagnetic and Thermal Therapies, which may include the use of ultrasound, low and high volt electrical muscle stimulation, transcutaneous electrical stimulation, microcurrent stimulation, infrared and ultraviolet therapies, moxibustion (burning on an acupoint using stick, string, or ball moxa) and hydrotherapy.

Acupuncture: insertion of special sterilized needles through the skin into underlying tissues at specific points on the surface of the body. Sometimes electrical, mechanical, or magnetic devices to stimulate acupuncture points and meridians may be used

I recognize the potential risks and benefits of these procedures as described below:

Potential risks: Discomfort, pain, minor bruising, infection, blistering, broken needle, loss of consciousness or deep tissue injury from needle insertions, topical procedures, heat or frictional therapies, electromagnetic- and hydrotherapies; allergic reactions to prescribed herbs or supplements, soft tissue or bone injury from physical manipulations, temporary discoloration of the skin, temporary dizziness and lightheadedness, and aggravation of pre-existing symptoms.

Potential benefits: Drugless relief of presenting symptoms and improved balance of bodily energies, which may lead to prevention or elimination of the presenting problem and the strengthening of the constitution, restoration of health and the body's maximal functional capacity, relief of pain and symptoms of disease, assistance in injury and disease recovery, and prevention of disease or its progression.

Notice to Pregnant Women: Labor-stimulating acupuncture points are not used unless the treatment is specifically for the induction of labor. A treatment intended to induce labor requires a letter from a primary care or pre-natal care provider authorizing or recommending such a treatment. All female patients must alert the practitioner right away if they know or suspect they are pregnant.

With this knowledge, I voluntarily consent to the above procedures, realizing that no guarantees have been given to me by doctors at Tree of Health Integrative Medicine regarding cure or improvement of my condition. I understand that I am free to withdraw my consent and to discontinue participation in these procedures at any time.

I understand that a record will be kept of the health services provided to me. This record will be kept confidential and will not be released to others unless so directed by myself or my representative or if it is required or permitted by applicable law. I understand that I may look at my medical record at any time and can request a copy of it by paying the appropriate fee. I understand that my medical record will be kept for a minimum of three, but no more than ten years after the date of my last treatment. I understand that information from my medical record may be analyzed for research purposes, and that my identity will be protected and kept confidential. I understand that any questions I have will be answered by my practitioner to the best of their ability.
